Government of the People's Republic of Bangladesh
Ministry of Agriculture, Bangladesh

Smallholder Agricultural Competitiveness Project (SACP)

Terms of Reference (TOR)
for
M&E-KM Specialist
Full Time Individual Consultant

Department of Agriculture Extension (DAE)
Bangladesh Agricultural Development Corporation (BADC)
Department of Agricultural Marketing (DAM)
Bangladesh Agricultural Research Institute (BARI)
Ministry of Agriculture

1. Background

The Smallholder Agricultural Competitiveness Project (SACP) is financed by International Fund for Agricultural Development (IFAD) which has been engaged in agriculture and rural development for 40 years in Bangladesh, aiming to provide an opportunity for further scaling-up and enhancing some of the best practices and innovations that have proven to be useful climate change adaptation responses, as well as introducing practical methods and technologies in sustainable production enhancement, post-harvest management, value chain development and public-private partnership development. Through a direct partnership with the Ministry of Agriculture, SACP is supporting the Government's strategic master plan of transforming agriculture in Southern Bangladesh.

The SACP project is implemented in 20 districts covering 90 Upazilas in the Southern and Northern Regions (Coastal Zone, Barind and Drought Prone Areas and River Systems and Estuaries-char) areas of Bangladesh, covering 750 unions selected based on the targeting criteria. The project is implemented by five agencies (DAE, DAM, BADC, BARI and FAO).

Overall objective of SACP

The overall objective of the project is to increase farmer incomes and livelihood resilience through demand-led productivity growth, diversification and marketing in a changing climatic condition; To contribute to the public investment priority of achieving food security, and to promote sustainable, inclusive, climate-resilient, and nutrition-sensitive agriculture in three major climatic hotspots of Bangladesh.

Specific objectives

- a) Enhanced production of High Value Crops (HVC) and technology adoption.
- b) Assessment of HVCs and group mobilization.
- c) Demand-driven production and market-led research
- d) Processing and marketing of HVC.
- e) Improving market linkage
- f) Increasing Post-harvest and processing investments
- g) Development of food safety and nutrition measures along the value chain
- h) Climate Resilient Surface Water Management.
- i) Sustainable surface water management, drainage, conservation and utilization; and
- j) Institutional support for research, extension and capacity building

Project Structure

The project is implemented by four departments of MoA through three technical components supported by a project management component. Component 1-Enhanced production of High Value Crops (HVCs) and technology adoption, is led by the Department of Agricultural Extension (DAE) with support from Bangladesh Agricultural Research Institute (BARI). Component 2- Processing and Marketing of HVCs is led by the Department of Agricultural Marketing (DAM), and Component 3-Climate Resilient Surface Water Management is led by the Bangladesh Agriculture Development Corporation (BADC). These four departments together form the project management component supported by technical assistance from the Food and Agriculture Organization of the United Nations (FAO). An additional Component, Diversified Resilient Agriculture for Food and Nutrition Security (RAINS) will be implemented from 2023.
